

Reciprocal System Database: Available Macrocosmos Graphs

Ronald W. Satz, Ph.D.

Star Graphs:

Density, g/cm³

Pressure, atm

Temperature, K

Volume of Shell / Total Volume

Mass of Shell / Total Mass

All can be plotted vs. Atomic Number or r_{mean} / R

Galaxy Cluster/Group Graphs:

Zero-Point Speed, km/sec, as a Function of Mass

First Gravitational Limit, ly, as a Function of Mass

First Gravitational Limit, Mpc, as a Function of Mass

Second Gravitational Limit, ly, as a Function of Mass

Second Gravitational Limit, Mpc, as a Function of Mass

Net Speed of Mass, km/sec, Inside First Grav. Limit

Net Speed of Mass, km/sec, Outside First Grav. Limit

Hubble Constant, km/(sec Mpc), as a Function of Mass

Hubble Constant, km/(sec Mpc), as a Function of Distance
